CLIN	**Model/ID**	**Description**	**IW2 Price**					
LT3006	L1008-1	Microsoft Certified Systems Engineers with a specialty in the Internet are required to pass seven operating system exams and two elective exams that provide a valid and reliable measure of technical proficiency and expertise. These exams are developed with the input of professionals in the industry and reflect how Microsoft products are used in organizations throughout the world. The exams are administered by Sylvan Prometric™ and Virtual University Enterprises, independent testing organizations, with locations worldwide. In addition to the core MCSE skills, an MCSE+Internet credential qualifies IT professionals to enhance, deploy and manage sophisticated intranet and Internet solutions that include a browser, proxy server, host servers, database, and messaging and commerce components. In addition, an MCSE+Internet-certified professional will be able to manage and analyze Web sites. 1 seat. Volume Pricing is available	$ 2,120.75

LT3010	LT1013-1	CIW Generalist: 1 Exam (4 titles) CIW Generalist: 1 Exam (4 titles) The CIW program is an Internet skills certification program. CIW is based on job roles and associated skills. These job roles are key for employers to deploy e-business solutions. The CIW program identifies skills associated with job roles, and bases its content, curriculum and examinations on these job roles and required skills. The CIW program is a means to prove Internet skills competency based on an established skill set. This role-based program offers a vendor-neutral "road map" for individuals, organizations, and government agencies that must effectively identify and acquire an essential set of Internet skills. The CIW program develops and validates these skills for corporations and individuals. 1 seat. Volume Pricing is Available	$ 191.25
